Dear Planning Board Members,

Thank you for all the hard work on the ordinances this year.

My comment during the meeting this even related to the fee schedule that I would like to see for class A versus class B and also compensation per acre that a class B entity/permittee pays the town.

-I would like to see the permit fee for class A follow the general permit fee schedule (\$25 or whatever is deemed appropriate) For class B mining permits, I would like to see a fee that would help pay for lawyer fee because that type of permit would need to be reviewed by a lawyer before approval.

-Once a class B permit is approved, I would like to see the town compensated about \$10,000-\$20,000 per mined acre and for those funds to be automatically placed into the road maintenance fund for the town.

Thank you
Coreysha

Thanks for your comments, Coreysha. I will share them with the rest of the board.

Cathy Johnson
Chair, Alna Planning Board
