Alna Planning Board Letter of Approval

Date: April 6, 2023

To: Ian Messier
Crooker Construction LLC
103 Lewiston Road
PO Box 5001
Topsham ME 04086

Dear Mr. Messier,

I am pleased to inform you that the Planning Board approved Crooker Construction LLC's application for blasting activity at your pit in Alna. The approved blasting activity shall occur only in the area designated as the "2023 Work Area" on Figure 1 in your 2023 application. This permit allows for a maximum of 19 blasting days at the pit from April 6, 2023 to December 31, 2023, a maximum of three blasts per blasting day, and the removal of a maximum of 100,000 CY yards of material. Thank you for providing a summary of the blasting activities in 2022 and the expected blasting schedule in 2023.

In addition to application requirements noted in earlier application approvals the Planning Board requires that in addition to the normal water quality testing that is stipulated by the Topsham Blasting Ordinance to be done at the 19 series wells that these wells should also be tested for the presence of hydrocarbons and PFAS chemicals by December 31, 2023 and the results reported to the Alna Planning Board.

Best regards
