

12/4/25

As our selectmen you are charged with considering the welfare of the town from all perspectives. In order to fairly represent the average Alna citizen you need to make the following changes to the mining ordinance:

1. Limit the maximum size to control unfettered expansion thereby causing irreparable harm to Alna's landscape
2. In fairness to everyone, require ALL permits to be renewable every 5 years
3. Require standards for noise, dust, dirt, etc. for ALL commercial mining operations
4. Limit operations to M-F out of respect for the peaceful enjoyment of our community for all.

Thank you.

Sincerely,

Janet Manahan
