Wow! That's a full load!

I have some comments for the mining ordinance review to send you.

Mainly:

- Date of 01JAN2029 appears to coincide with Crooker's next permit and sends a strong message that Alna is going to allow them to complete their crater/extraction for some reason.

I request this date be changed to 01JAN2025.

More to follow, please pass to the planning board.

Thank you Sarah!

-Don
